

ColorCast Acrylics

Your signage will really stand out with ColorCast Acrylics. They are harder and clearer than extruded acrylics, and they allow you to perform fine, detailed laser and rotary engraving.

ColorCast Acrylics are also available with a gloss finish as shown here. To order ColorCast Acrylics with the gloss finish substitute a "G" in place of the "M" found at the end of each item code.

Gloss Finish

ColorCast Acrylics Specifications

Material

- » Cell cast acrylic

Finish

- » Matte non-glare
- » Gloss ■

Sheet Size

- » 24" x 48"
(610 x 1219mm)
+ 0, - .125"

* Thickness 2-ply

- » 1/8" (3.2mm) Use CC342 as first digits of item code.
- » 1/4" (6.4mm) Use CC352 as first digits of item code.

* Cell Cast Acrylics have thickness variations that may present difficulties in applications where thickness tolerance is important (i.e. fitting into extrusions, thermoforming applications where walls must maintain uniform thickness, and assembly of complex structures). Remember to check gauge when non-contact engraving takes place, and to periodically re-check focal lengths when laser engraving. In some cases, thickness variations may require the operator to make multiple passes during laser engraving.

Usage

- » Craft and Artistry Projects
- » Interior Signage
- » Exterior Signage
- » Illuminated Wayfinding
- » Personal Identification
- » Trophies, Awards, & Plaques
- » ADA Compliant *matte only

Engraving Method
