

Klipser™ is a synthetic option which mounts the panel to the wall with a screw, without the stand-off being visible from the front. The Klipser quickly and inexpensively adds dimension to any project.

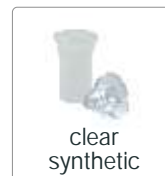

Features:

- » Material: clear polycarbonate
- » Indoor weatherable
- » Installation methods: VHB tape, liquid glue, screws or silicone
- » Recommended load per piece: test each installation application individually
- » No holes required in signage substrate
- » Sold in packs of ten
- » Assembly kit included
