

ColorHues™ Coasters & Holder

INSTRUCTIONS

Here we have a cool little project that will keep your surfaces ring free!

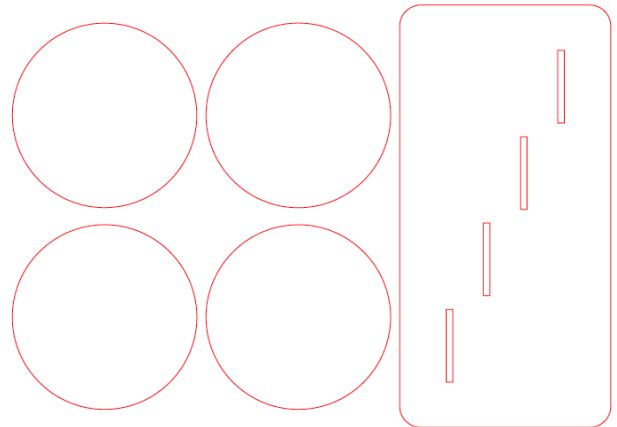

We used 1/8" Matte Clear ColorHues™.

1. Import your design and adjust power and speed settings.
2. Tape the plastic sheet panel to the bed to ensure it doesn't move.
3. Start by engraving the design out of your sheet. This will help it from moving and alignment when cutting.
4. Next, cut the outer shapes by using the capture feature.
5. Once finished, give it a good once over in the sink with a soft bristle brush.
6. Add 4 self-adhesive rubber bump-ons on the bottom side of your cut pieces.

There you have it, time for guests!
