

## **///Statement on Toxic Substance Control Act (TSCA) – PFAS reporting**

---

The United States Toxic Substances Control Act (TSCA) is a federal regulation that allows the Environmental Protection Agency (EPA) to comprehensively manage chemicals in U.S. Commerce. TSCA mandates the reporting of certain information from U.S. manufacturers of all PFAS chemicals, including PFAS created as manufacturing byproducts.

This statement applies to PFAS and PBT chemicals:

Based on information made available to us from our raw material suppliers and our knowledge of the products' composition, we can confirm that Rowmark sheet product does not contain PFAS/PBT chemicals\*

\*These substances may not be routinely analyzed by our suppliers, as they are presumed not present.
