

Screen Printing

Screen Printing on Rowmark Material

For screen printing, Rowmark recommends the following inks and settings:

Ink: Nazdar 9700 series

Thinner: Nazdar RE 180

Ink Mix: 10:1 ink to thinner ratio

Mix ink and thinner well and apply to plastic. Allow to cure 24-36 hours at room temperature. For information on forced drying, see Nazdar's technical information on the following pages.

Rowmark materials recommended for screen-printing:

ADA Alternative	Satins
ColorCast Acrylics	Slickers
Earthtones	Silks
FlexiBrass® & FlexiColor®	Standard Metals
Granites Deluxe™	Textures
Lacquers	LaserMark®
LaserMax®	Mattes
Outdoor Weatherable Metals	NoMark® Plus
Reverse LaserMark®	
Ultra-Mattes Reverse Engravable	

Refer to Nazdar's technical data documentation on their 9700 series inks within the above products' folders on Rowmark technical help.
